# Requirements Document

Tom van Duist & Kevin van den Bekerom

October 29, 2015

Lab assignment Requirements Engineering

" *The architecture giveth and the implementation taketh away.*"
- Len Bass, Paul Clements, Rick Kazman

Master Software Engineering
Faculteit der Natuurwetenschappen, Wiskunde en Informatica
Universiteit van Amsterdam

# Contents

**1 Introduction** **4**

**2 Domain Analysis** **5**

2.1 Glossary of terms . . . . . 5

2.2 Organization . . . . . 5

2.3 Scope . . . . . 5

2.4 Stakeholders . . . . . 5

2.5 Strengths and Weaknesses . . . . . 5

2.6 Domain facts . . . . . 5

**3 References** **6**

# Document Status Sheet

## Document status overview

### General

| | |
|---|---|
| Document title: | Architectural Design Document |
| Authors: | Kevin van den Bekerom |
| | Tom van Duist |
| Document status: | Draft release |

### Document history

| *Version* | *Date* | *Reason of change* |
|---|---|---|
| 0.0 | 02-09-2015 | Setup of the document layout |
| 0.1 | 29-10-2015 | Release version week 1 |

# 1 Introduction

Blabla.

# 2 Domain Analysis

## 2.1 Glossary of terms

List all relevant terms in the problem world

## 2.2 Organization

The organization within which the system-as-is takes place: its structure, strategic objectives, business policies, roles played by organizational units and actors, and dependencies among them.

## 2.3 Scope

The scope of the system-as-is: its underlying objectives, the components forming it, the concepts on which it relies, the tasks involved in it, the information flowing through it, and the constraints and regulations to which the system is subject.

## 2.4 Stakeholders

The set of stakeholders to be involved in the RE process.

## 2.5 Strengths and Weaknesses

The strengths and weaknesses of the system-as-is, as perceived by the identified stakeholders.

## 2.6 Domain facts
